Responsible business leadership

Group Customer Director and Responsible Business Lead

Gail Klintworth

Gail Klintworth has been Group Customer Director and Responsible Business Lead since August 2014. She had previously worked for Unilever for 28 years, most recently as their Chief Sustainability Officer from 2012 to 2014. She was appointed Executive Vice President Global Savoury Category, a €5 billion business with a presence in 150 countries, in 2010.

Our approach

Our aim is to embed responsible business deeply into all we do, recognising that it is in our core operations and day-to-day decisions that we evidence our responsible approach to business and build trust with our customers. Our commitment to be a leader in responsible business stems from our purpose in society, which is to help our customers thrive by enabling them to achieve their lifetime financial goals, while investing their funds in ways that will create a positive future for them, their families, their communities, and the world at large.

Our impact

Working with the Cambridge Institute for Sustainability Leadership, we have identified two areas where we can make the most material impact: enabling the financial wellbeing of our customers, and promoting responsible investment. Our focus on these two areas complements our existing five-pillar approach to responsible business – being responsible to our customers, communities, employees, the environment and in our investments – established following extensive stakeholder engagement in 2010 and reviewed in 2013.

OUR FOCUS AREAS & FIVE PILLAR FRAMEWORK

Increasing our impact through a focus on

ENABLING THE FINANCIAL WELLBEING OF OUR CUSTOMERS

We define financial wellbeing as:

Being and feeling financially secure, able to provide for yourself and your family, now and in the future.

At Old Mutual we focus on enabling financial wellbeing through improving access to financial services, providing products suitable for our customers' needs, and financial education.

As a responsible business, we supply the informal sector with loans to help them achieve their lifetime financial goals.

PROMOTING RESPONSIBLE INVESTMENT IN EACH OF OUR MARKETS

We define responsible investment as:

A cross-cutting approach to investment that integrates the consideration of material environmental, social and governance (ESG) factors into investment and ownership practices, as a basis for making the transition to a low-carbon, socially inclusive economy.

Campbell Global is working with partners in the United States on environmental enhancement projects, including landscape restoration.
